A VIRTUAL CABARET

BENEFITING THE

NATIONAL BREAST CANCER COALITION FUND

FROM THE HOSTS OF

Sunday, December 6, 2020 5 p.m. PT / 8 p.m. ET

A LETTER FROM FRAN

Dear Friends,

Welcome to our first-ever *Virtual Cabaret Event* and an evening of talented performances and tantalizing fun, all for a great cause.

This year marks the 20th Anniversary of our *Les Girls Cabaret* and the 25th Anniversary of our *NY Gala*, and these two special events have sustained the National Breast Cancer Coalition (NBCC), year after year. When the pandemic hit, I began to wonder if either event would happen. But we found a way. Thanks to the extraordinary efforts of our Event Committee, the encouragement of our sponsors, the personal commitment of our hosts and performers, and the imagination of our production team, we are able to combine both events and once again offer a one-of-a-kind, fantastic evening. We are forever grateful to all of them.

Since 1991, NBCC has been at the vanguard of the breast cancer movement, elevating breast cancer to an issue of national significance. NBCC brought about a federal research program that has awarded over \$3.75 billion in research grants. We empower women and men, through education and training, to become a unified voice to save lives. And through our Artemis Project®, we lead a collaboration of exceptional scientists and dedicated advocates who focus on research to prevent women and men from getting breast cancer in the first place and stop it from metastasizing and taking lives. And we will, in 2021, begin a Phase-1 Clinical Trial on a breast cancer preventive vaccine.

This Virtual Cabaret Event will allow NBCC to continue this life-saving work. On behalf of the hundreds of breast cancer organizations and tens of thousands of advocates who are part of NBCC, as well as the more than three million women and thousands of men in the United States living with breast cancer, those at risk, and their family and friends, we sincerely thank you for your generosity.

Despite the global pandemic, NBCC has persevered and actually blossomed in 2020 because of our loyal, passionate advocates, brilliant researchers, generous sponsors and donors, and you, our audience.

Thank you so much for believing in our mission to end breast cancer.

Sincerely,

Fran Visco President

for their support of our Virtual Cabaret and their continued commitment to our mission to end breast cancer.

The National Breast Cancer Coalition is a collaboration of activists, survivors, researchers, grassroots groups, and national organizations that have come together as disruptive innovators for social change. NBCC links hundreds of organizations and tens of thousands of individuals from across the country into a dynamic, diverse coalition that gives breast cancer a meaningful voice in Washington, DC, and state capitals, in laboratories and health care institutions, and in local communities everywhere. NBCC increases funding and leads efforts for innovative breast cancer research; monitors how research funds are spent; expands access to quality health care for all; and ensures that trained advocates influence all decision making in breast cancer.
